CITA Strategy 2005 to 2010

CITA Strategy 2005 - 2010

CITA

CITA's Mission

CITA's aim is to play a leading role in shaping the future for sustainable Roadworthiness Inspection & Enforcement in all regions of the world, based on its conviction that effective in-service vehicle inspection is, and will remain, an essential element of all types of successful roadworthiness control regimes, thus contributing to the social and economic benefits of improved road safety and environmental friendly road transport.

It will achieve this aim by being

- **influential with all key stakeholders;**
- **proactive; and**
- **representative;**

through proposals and policies for all types of in-service road vehicles based on:

- **objective, impartial analysis of the social and economic benefits of vehicle inspection and other solutions for in-service control of vehicle roadworthiness; and**
- **the need for independent control of all types of roadworthiness control regimes.**

CITA's STRATEGY

CITA

"To Shape a sustainable future for its Members by being:-"

Proactive

Pace-setter though informed, forward and broadened thinking

Searching out & investigating opportunities

Actively promoting best practice & exploitation of promising opportunities

Objective and impartial socio-economic assessment

Influential

Research based recommendations and proposals

Working in Partnerships
