Highlights of Vehicle Inspection in Spain

CITA Conference
15-17th May – Seville – Spain

José Manuel Prieto
Jefe de Área de Reglamentación y Homologación de vehículos
Subdirección General de Calidad y Seguridad Industrial

Central government set the rules for vehicle inspection:

- Inspection procedure.
- Vehicles to be inspected.
- Staff skills and qualification.
- Periodicity.
- Proof of test.
- Minimum requirements for inspection sites.

Each region manages the service:

- Who grants the service.
- Inspection site location.
- Inspection fee.
- Opening time.
- Quality assurance.

- 365 inspection sites.
- 56 inspection companies.
- 6.075 staff employed.
- 16.588.629 vehicles inspected in 2011.
- 19,32% vehicles rejected.

- Quality assurance based in EN 17.020.
- Vehicle inspection network collaborates in vehicle registration.
- Vehicle inspection network collaborates in vehicle transformation approval.

Mandatory since January 2007 / June 2009, depending on the region.

Fatalities: drivers and passengers of mopeds

Percentage of fatalities of drivers and passengers of mopeds among the total of fatalities

Inspection of mopeds

Fleet of mopeds

Average of mopeds on the fleet

- To include vehicle new technology systems within the scope of inspection.
- To improve data management, both data required by inspection sites and result of inspections.
