INTRODUCTION TO CITA'S NEW VISION AND MISSION

THE CITA'S VISION

Help its Members play an influential role in the development and implementation of policies for safe and sustainable road usage

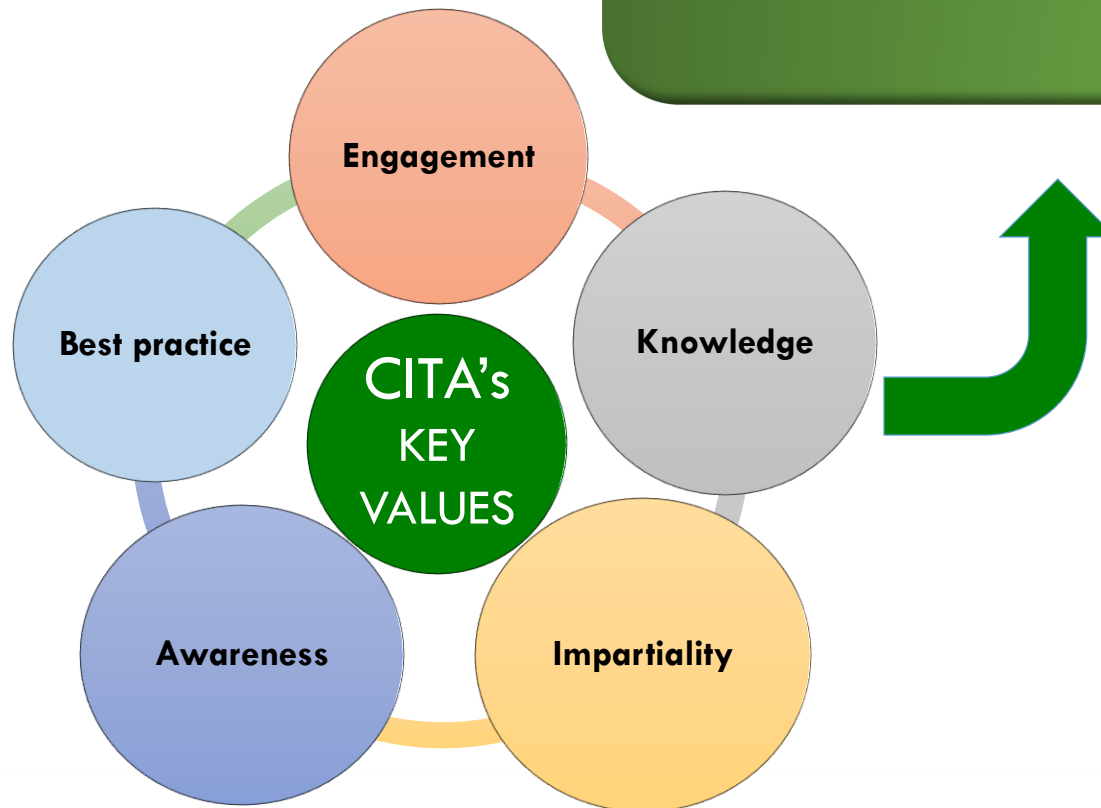

**Brainstorming
CITA's Values**

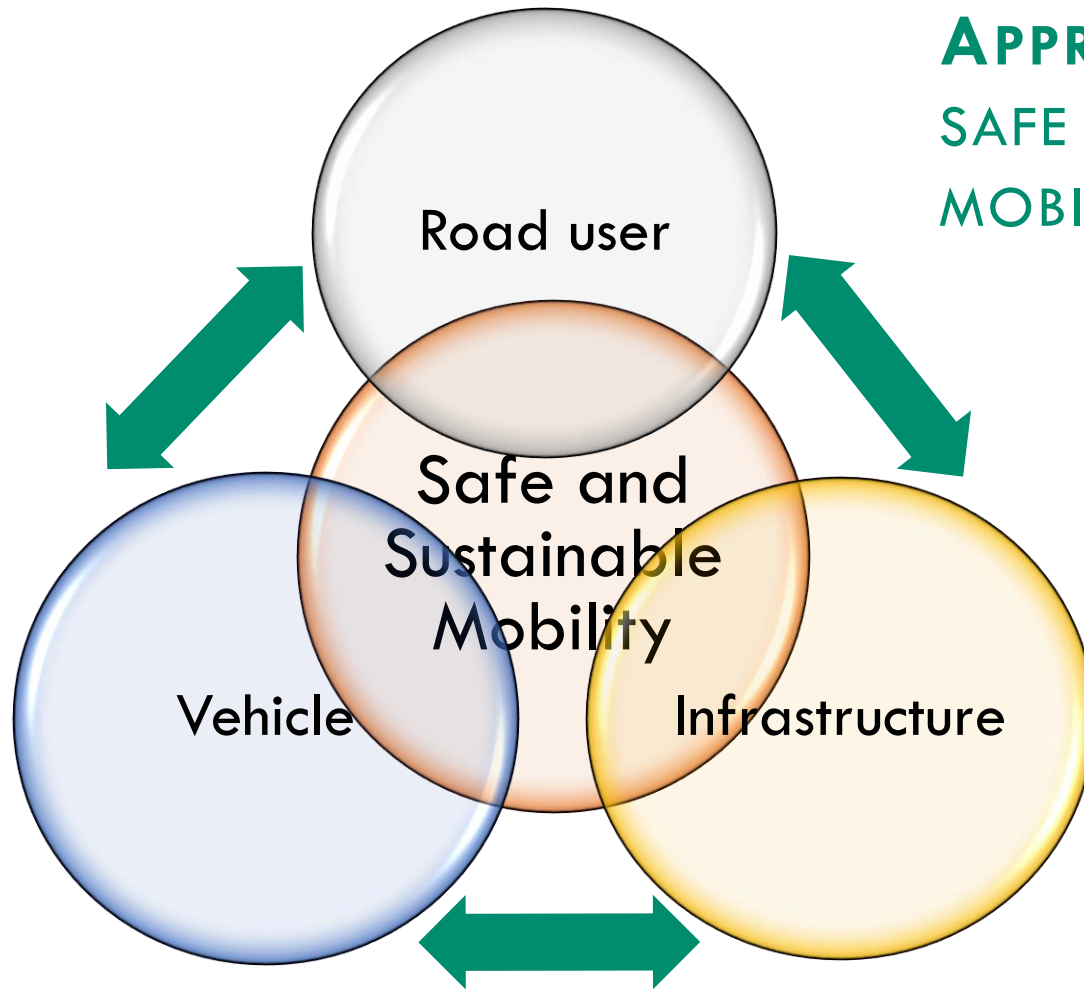

CITA'S MISSION

To provide the forums to create,
assess and promote best practice
ensuring safe and compliant
vehicles throughout their life-cycle

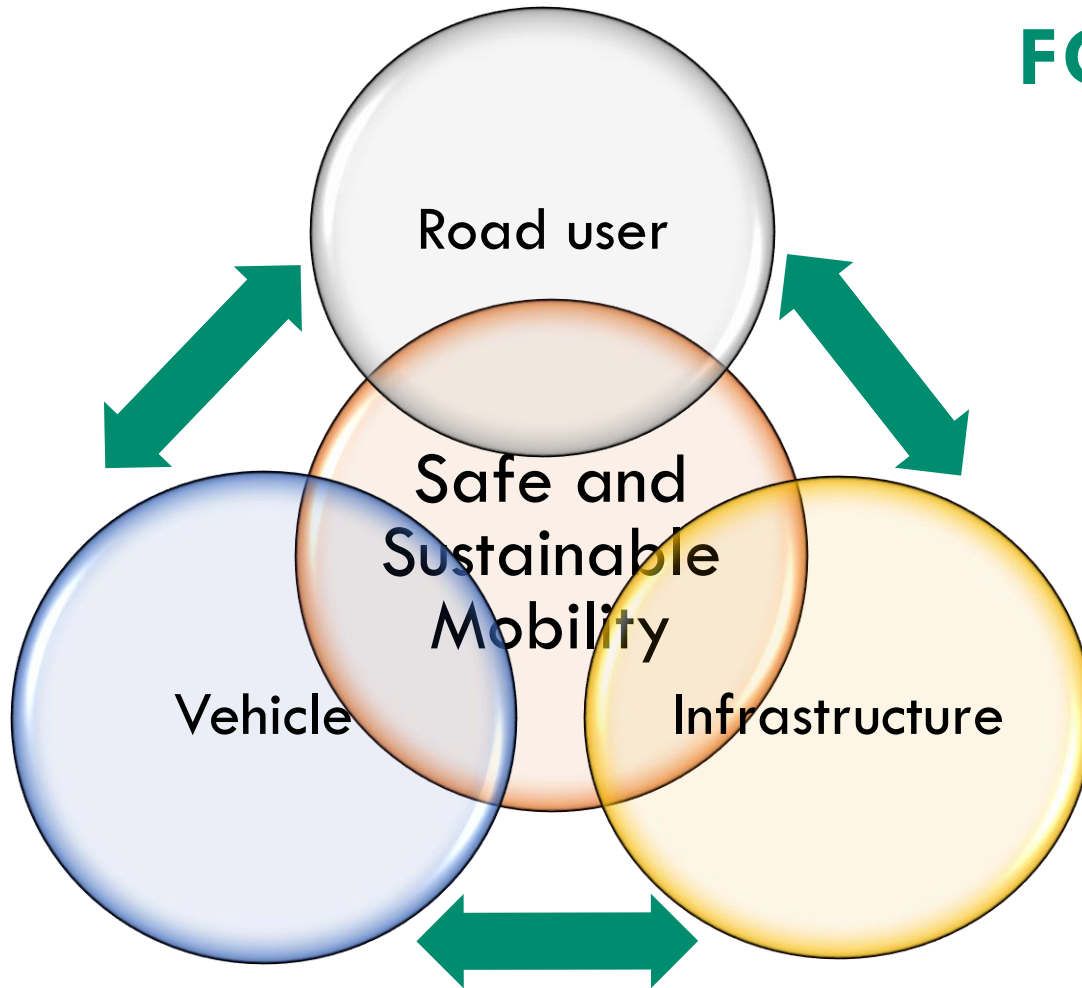

CITA'S STRATEGY IS BASED ON A "WHOLE SYSTEM APPROACH" TO ACHIEVING SAFE AND SUSTAINABLE MOBILITY

- 1) INCLUSION IN THE SYSTEM OF THE 3 KEY FACTORS THAT AFFECT SAFE AND SUSTAINABLE MOBILITY
- 2) RECOGNITION OF THE INFLUENCE OF NEW TECHNOLOGY ON THIS SYSTEM
- 3) NEED TO OPTIMISE THE INTERACTION BETWEEN THESE KEY FACTORS

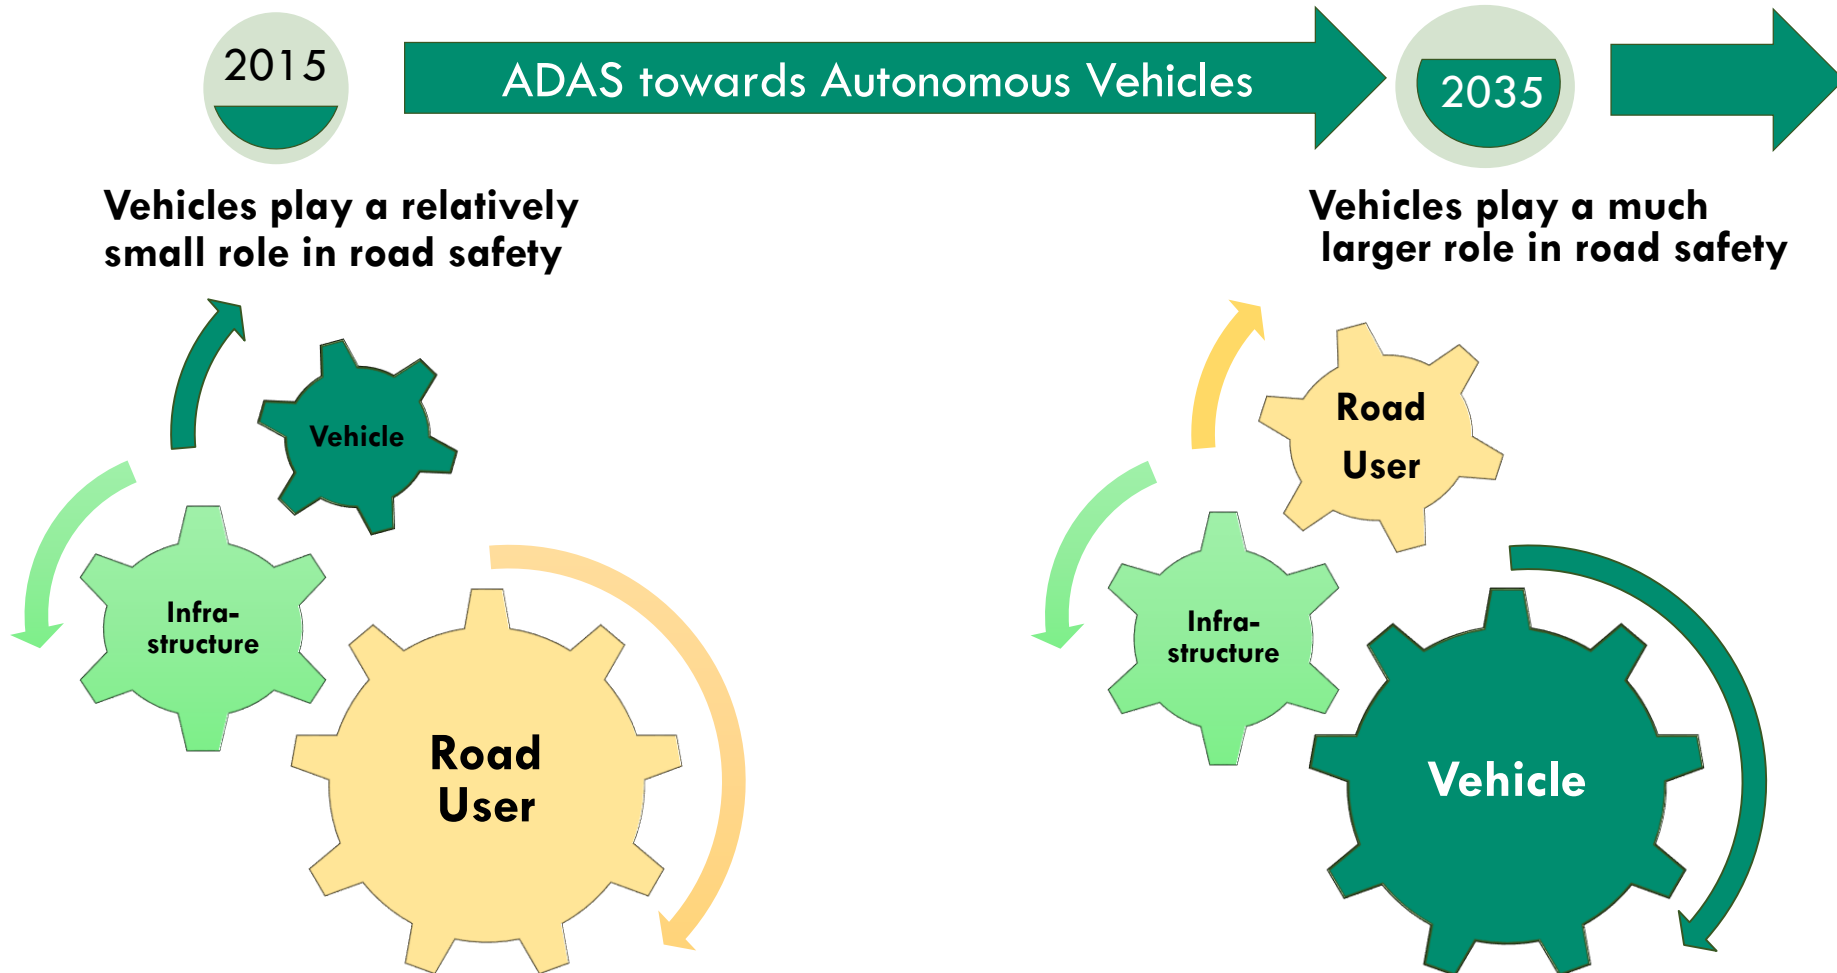

THIS STRATEGY FOCUSES ON:

- 1) CHALLENGES FOR CITA TO OPTIMISE THE BENEFITS OF NEW TECHNOLOGY
- 2) GROWING OPPORTUNITIES PRESENTED BY THE RAPID INTRODUCTION OF NEW TECHNOLOGY SYSTEMS

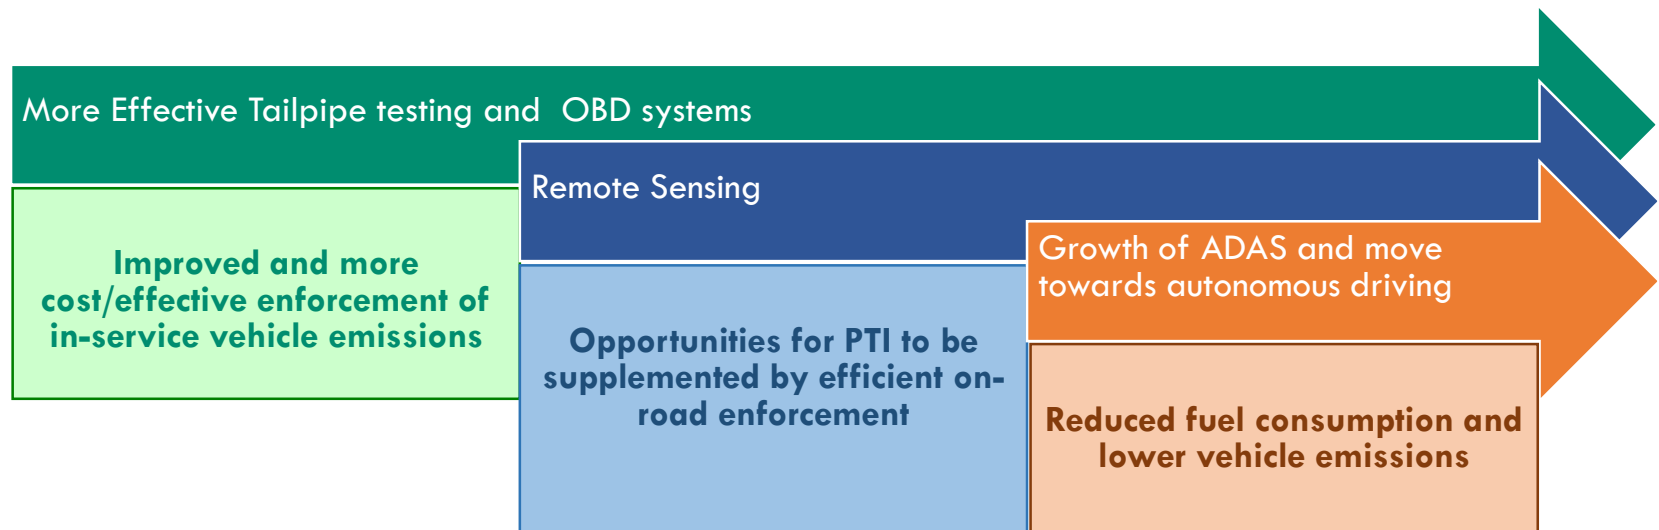

NEW TECHNOLOGY SYSTEMS IMPLICATIONS FOR ROAD SAFETY

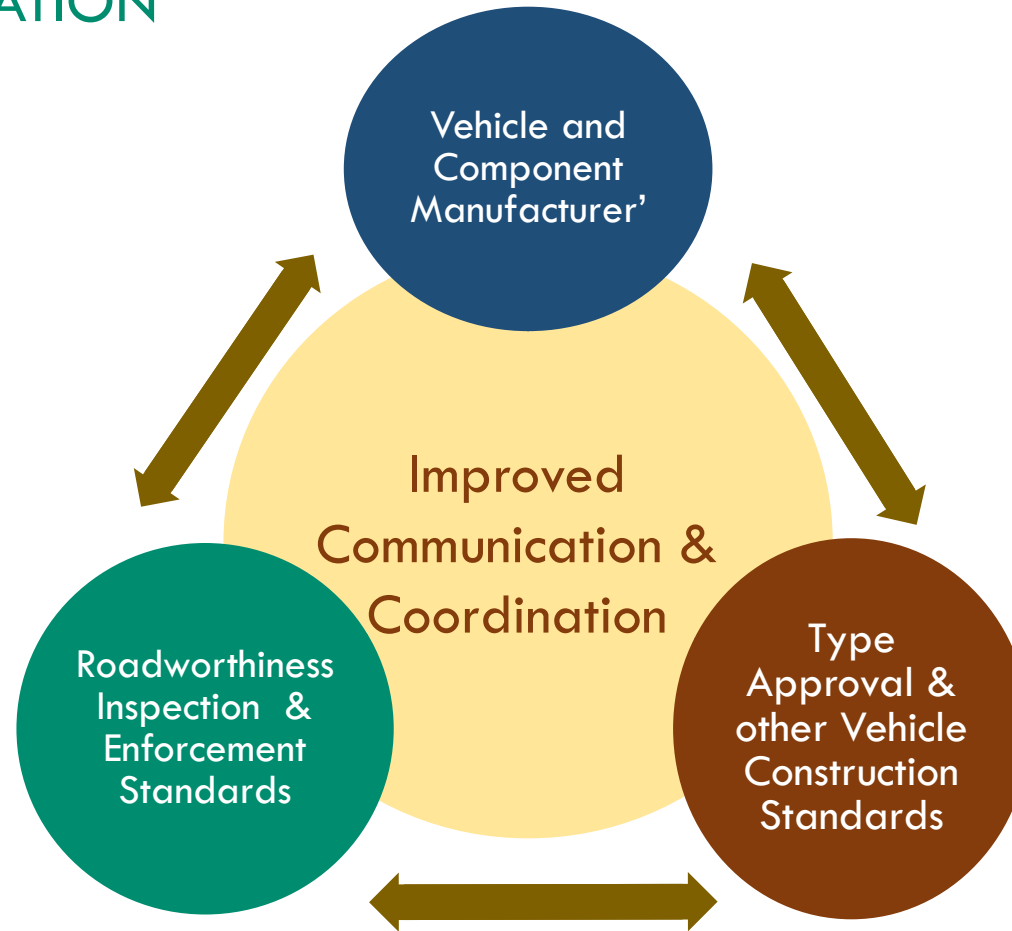

IMPLICATIONS OF NEW TECHNOLOGY SYSTEMS FOR ENVIRONMENTAL PROTECTION

CHALLENGES FACING CITA: COMMUNICATION & CO-ORDINATION

CHALLENGES FACING CITA: ALIGNMENT

Developments in
Automotive
Technology

Social Conditions

Development of
Roadworthiness
Standards &
Inspection
Procedures

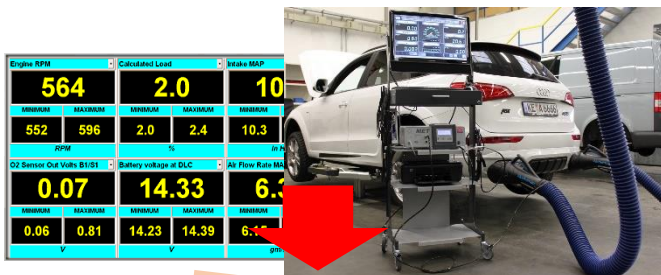

CHALLENGES FACING CITA: MEETING REGIONAL NEEDS

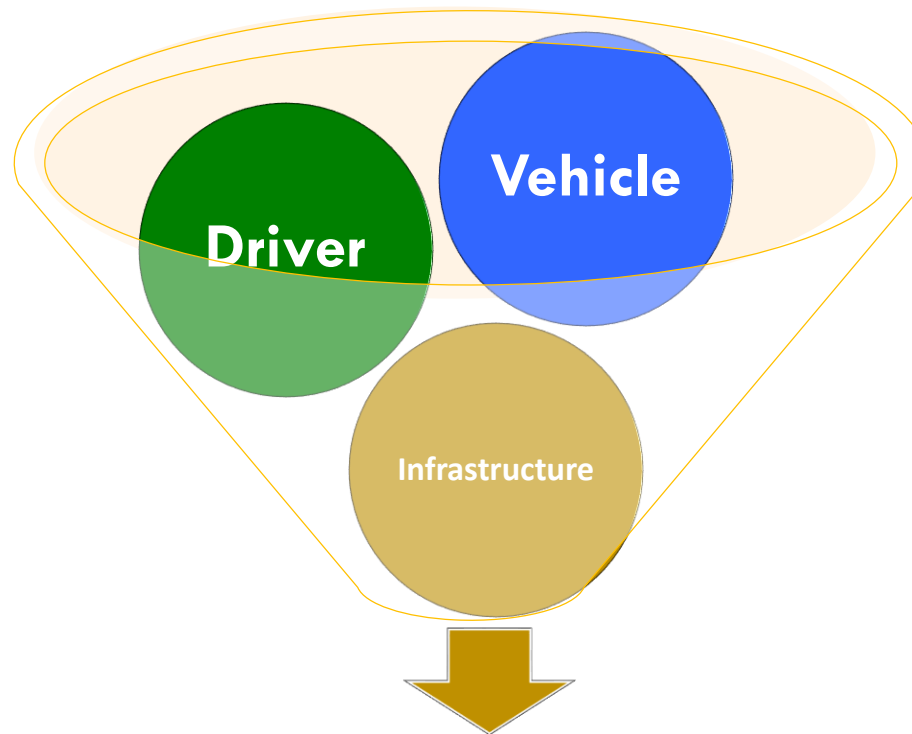

CHALLENGES FACING CITA – EFFICIENT AND EFFECTIVE TESTING

OPPORTUNITY TO DEFINE A NEW APPROACH TO MEASURING THE **BENEFITS OF VEHICLE INSPECTION** BASED ON THE “WHOLE SYSTEMS” APPROACH

CONCLUSIONS

Vehicles, Users and Infrastructure are key factors in safe and sustainable mobility

The interaction between these factors needs optimisation

New technology will provide the key to this optimisation, and opportunities for future advancement

This conference will provide a wonderful occasion to explore and progress these opportunities

REFRESHMENT BREAK

10:00 – 10:30

**PLEASE RETURN PROMPTLY TO YOUR
SEATS FOR PLENARY SESSION ONE**
